🔧 **Fullstack AI Developer | Gene AI, N8N, RAG, AWS Bedrock, AI Voice Agent, AI SaaS Development** with 8+ years of experience 📧. I build AI agents, voice bots, RAG systems, and AI SaaS platforms that save time and boost business results. I focus on real, production-ready AI systems that work at scale ⚡.

💠 What I Do

I build real-world AI solutions for businesses, startups, and SaaS platforms, including:

Full-Stack Web Development 🌐: Python (Flask, FastAPI, Django), JavaScript, Node.js, React, MongoDB
Cloud & Deployment ☁: AWS Bedrock, Lambda, S3, GCP, Docker, Kubernetes, CI/CD pipelines

💠 Tech Stack & Expertise

AI / ML / LLMs: GPT-4, ChatGPT, LLaMA 3, Mistral 7B, Mixtral 8x7B, OpenAI API, Hugging Face
AI Agents & Voice: CrewAI, AutoGen, Amazon Polly, Deepgram, Clawdbot

💠 Why Clients Hire Me

- ✓ Expertise in AI agents, RAG pipelines, SaaS AI platforms, and voice AI
- ✓ Fast, reliable delivery with clear communication

Message me today and let's get started! 📧

Skills

- **DevOps and Deployment:** Docker, Kubernetes, Azure DevOps, Jenkins, RFID
- **Cloud Platforms:** Azure, AWS, Google Cloud Platform (GCP), AWS
- **Version Control:** Git, Bitbucket
- **Testing Tools:** NUnit, Selenium, Cypress, Jest, Enzyme
- **Healthcare Standards:** FHIR, HL7

Experience

FEBRUARY 2022 – PRESENT

Led AI Python Developer | Connexusfit | Hempstead, Texas

- Utilized **AWS SageMaker** to fine-tune and deploy large language models (LLMs) like **BERT**, **GPT**, and **T5** for NLP-based applications, specifically in **chatbot** development and semantic search.
- Integrated **SageMaker** Studio for easy monitoring, debugging, and optimization of NLP models during development.
- Built a backend system that integrated Generative AI to generate knowledge insights from structured and unstructured data. Leveraged OpenAI API and fine-tuned models for domain-specific use cases.
- Deployed applications with **Docker**, **Kubernetes**, and cloud platforms (**AWS**, **GCP**) to ensure robustness and efficiency.
- Set up CI/CD pipelines with GitLab CI/CD and Jenkins to automate deployments.
- Developed a chatbot using GPT-based models tailored for healthcare.

Education

NOVEMBER 2015 - AUGUST 2017

Master's degree, Computer Science | Texas AD&M University | College Station, TX

Licenses & Certifications

- Python Essentials 2

- Javascript Essentials 2

- AI Chatbot
- AI Text-to-Speech
- AI Text-to-Image
- AI Speech-to-Text
- AI Agent Development
- AI Image Generation
- AI Model Integration
- AI Security
- AI Trading
- n8n
- LLM Prompt Engineering
- LangChain
- OpenAI API
- GPT API
- Back-End Development
- AI Mobile App Development
